Risk Assessment - Domaine de Segries

Fire

Certificate held?

Periodic inspections by Commission de Sécurité. Integrated fire alarm in Farmhouse and smoke detection in Cabins

Security

Rooms lockable?

Cabins, yes. Farmhouse dormitories are not lockable but entrance to the farmhouse is via a key coded door closed at night.

External doors locked at night?

Farmhouse Yes. Cabins have thumb turn locks allowing young persons to lock/unlock from inside and adults to unlock/lock from outside

Night security patrol.

No

Identification

Every adult to wear identity pass at all times?

Yes. (see note 1)

Lighting

Control measures ensure adequate lighting of all walkways after dark?

Yes.

Slips & Trips

Are there any specific hazards identified in the risk assessment programme? If so, detail.

Cleaning teams to use warning signs during cleaning.

Utility Integrity

Are all utility installations subject to inspection?

Yes via French contractors with annual inspections of gas, electricity and water sampling

Traffic Hazards

Are there any specific Traffic Hazards noted in the risk assessment programme? If so, detail.

Public road through site with speed bump. Delivery lorries. Guests made aware of route on arrival. (see note 1)

Restricted Areas

Are the out-of-bounds areas appropriately identified? If so, detail.

Centre boundaries are shown to guest on arrival and all restricted areas locked when not in use. (see note 1)

Transport

Are there any integral transport issues evident from the risk assessment programme?

Yes, specific risk assessment is held to cover all coach routes used in the programme - low risk.

Fire Procedures

Insert detail of fire drill procedure.

Introductory site tour has a walk through explanation (see note 1). Full evacuation available on request.

Emergency Procedures

Is there an emergency action plan in place, that has been rehearsed?

Yes.

Note 1

An introductory site tour highlights all relevant hazards to the guests. These hazards are constantly monitored while guests are on site. As a result of this control measure, the risk level is low in all areas noted.
