Yes. (see note 1)

Lighting

Control measures ensure adequate lighting of all walkways after dark?

Yes.

Slips & Trips

Are there any specific hazards identified in the risk assessment programme ? If so, detail.

No.

Utility Integrity

Are all utility installations subject to inspection?

Local authority inspections carried out annually for gas, electricity and fire safety installations. Annual PAT of electrical items.

Traffic Hazards

Are there any specific Traffic Hazards noted in the risk assessment programme? If so, detail.

Yes, specific risk assessment is held to cover all coach routes used in the programme - low risk.

Restricted Areas

Are the out-of-bounds areas appropriately identified? If so, detail.

Centre boundaries are clearly defined. (see note 1)

Transport

Are there any integral transport issues evident from the risk assessment programme?

Yes, specific risk assessment is held to cover all coach routes used in the programme - low risk.

Fire Procedures

Insert detail of fire drill procedure.

Each new intake has a walk through explanation (see note 1). Full evacuation available on request.

Emergency Procedures

Is there an emergency action plan in place, that has been rehearsed?

Yes.

Note 1

An introductory site tour highlights all relevant hazards to the guests. These hazards are constantly monitored while guests are on site. As a result of this control measure, the risk level is low in all areas noted. During the busy tourist season an external security company bolsters our PGL supervising staff.
